

# MIRROR UNITS

## ALKE SOUND MIRROR

ALKE Sound Mirror elevates your bathroom to a space of relaxation, enjoyment and tranquillity. The high-end music system seamlessly integrated in your bathroom furniture brings a huge boost to sound quality without limiting the desired music source. In addition to an FM and DAB (\*) radio, the Sound Mirror plays all the tracks that you have selected on your smartphone or other Bluetooth-enabled sources (such as iPod).

### CHARACTERISTICS MIRROR CABINET

(\*) NOTE: The ALKE soundbar works on main voltage (220V). When installing the ALKE soundbar under an ALKE base unit or in a 'fixed front', providing a power outlet at the level of the base cabinet/ fixed front is sufficient. The ALKE soundbar is connected to the 'ALKE-Smart Mirror' mirror panels via a separate power cable. This power cable must be fitted by the customer between the rear of the ALKE Smart Mirror and the base cabinet/ fixed front.
