KAT KLERKS

Being raised by a creative, imaginative and surrealistic father, the 32 year old Kat Klerks was stimulated to explore the many opportunities life would offer her and let nothing but reality stand in her way; “You can dream, but don’t let dreams be your master”. Spending many years in search of what her exact art form would be, Abstract Expressionism and Fauvism finally found her about one year ago. While she couldn’t find the perfect art pieces for her home, she started painting herself. Constantly seeking for balance in imperfection in both colours and forms, Kat finally realized it was the imperfection that actually created sense in her paintings.
