

INDUSTRIAL VACUUM CLEANERS

MHD 200 - Heavy Duty Three-phase industrial vacuum cleaner - INDUSTRIAL THREE PHASE

CEMENT WORKS AND CONSTRUCTION INDUSTRY

STEELWORKS AND FOUNDRIES

WOOD

SAND BLASTING

- ✓ Extremely silent.
- ✓ Suitable for simultaneous suction of dusts, liquids and solids.
- ✓ High level of filtration, filter efficiency detector, integrated manual filter cleaning system.

- ✓ Maintenance free motor ideal for continuous duty.
- ✓ Large capacity, detachable container with forklift intakes.

SUCTION UNIT

Voltage	V - Hz	400 - 50
Power	kW	18,5
Electrical protection	IP	55
Max waterlift	mmH ₂ O	4.400
Continuous water lift	mmH ₂ O	3.200
Max air flow	m ³ /h	1350
Suction inlet	mm	120

FILTER UNIT

Filter Type		Star
Surface - Diameter	cm ² -mm	70.000
Cleaning system		Manual

COLLECTION UNIT

Collection tank		Steel
Discharge system		Roll-out container
Capacity	lt.	160

VOLUME

Dimensions	cm	77 x 162 x 199h
------------	----	-----------------

SUCTION UNIT

Suction is developed by a powerful side channel blower with direct coupling between the fan and the motor and no transmission system, making it completely maintenance free and fit for continuous duty.

A pressure relief valve protects the motor from overheating and ensures the entry of cooling air for the motor.

FILTER UNIT

The filter is cleaned mechanically by means of a manual filter shaking lever which shakes the filter vertically, ensuring safe and effective cleaning. This contributes to maintain high suction efficiency and avoids the spreading of dust in the environment.

COLLECTION UNIT

The steel container has an easily detachable container for quick disposal of suctioned material.

OPTIONALS

- ✓ PTFE coated class M filter
- ✓ Stainless steel collection tank and filter chamber
- ✓ Earth grounding
- ✓ Automatic filter cleaning system with pneumatic cylinder shaker with timer and push button
- ✓ Automatic pneumatic filter cleaning system, 4 antistatic class M cartridges, surface 106.000cm²
- ✓ LOC/REM remote control
- ✓ Lifting bracket and ring for container tipping
- ✓ Abrasion proof plate for filter chamber
- ✓ Safety cartridge Hepa H14 52.000cm²
- ✓ Safety cartridge Hepa H14 103.000cm²
