PROTECTION MADE EASY

---

## Powdersoft L

---

### Description and destination of the product

---

**Powdersoft L** is a colourless solvent composition, based on selected aroma free solvents. Thanks to the great solvent power this product is especially suited for the following purposes:

- degreasing and softening of powder coated parts before the application of the finishing coat
- degreasing and softening of certain plastics

### Technical data

---

 <b>Density:</b>	0.81 ± 0.05 g/cm <sup>3</sup>
 <b>Aromatic content</b>	0%

### Use

---

**Powdersoft L** must be handled according to the suitable methods of cleaning. Antistatic clothing must be used.

### Safety measure

---

For detailed information about safety measures, personal protection and transport data of this product, we refer to the safety data sheet.

*The last update of our technical data sheets is always available at our website: [www.libertpaints.be](http://www.libertpaints.be)*

#### **Disclaimer**

*The information given in this technical data sheet is only a general product description, based on our experiences and tests and therefore does not represent a specific practical case. Consequently Libert Paints doesn't guarantee the functionality or result and takes no responsibility in this respect.*

*We advise our clients to test the applicability of the product to the nature and the state of the surfaces and to carry out the necessary representative tests in case of doubt. Please contact our R&D department as the occasion arises.*

*Attention: our clients should verify whether the present technical data sheet hasn't been replaced by a more recent version.*
