

Technical data sheet

PROTECTION MADE EASY

PVC Degreaser

Description and destination of the product

PVC Degreaser is a colourless antistatic solvent composition, based on selected solvents free of aromatics and with a great solvent power. It provides a chemical finishing to most synthetics (polyester, ABC, PVC, ...). Thanks to the antistatic characteristics no dust particles are left on the substrate when it is degreased with antistatic cloths.

Technical data

- **Density:** $\pm 0.05 \text{ g/cm}^3$
- **Aromatic content:** 0%

Use

An antistatic cloth must be drenched in **PVC Degreaser** to wash off the surface.

Safety measure

For detailed information about safety measures, personal protection and transport data of this product, we refer to the safety data sheet.

The last update of our technical data sheets is always available at our website: www.libertpaints.be

Disclaimer

The information given in this technical data sheet is only a general product description, based on our experiences and tests and therefore does not represent a specific practical case. Consequently Libert Paints doesn't guarantee the functionality or result and takes no responsibility in this respect.

We advise our clients to test the applicability of the product to the nature and the state of the surfaces and to carry out the necessary representative tests in case of doubt. Please contact our R&D department as the occasion arises.

Attention: our clients should verify whether the present technical data sheet hasn't been replaced by a more recent version.
