panel storage system

www.barbaric.at

barbaric
relieve with system.

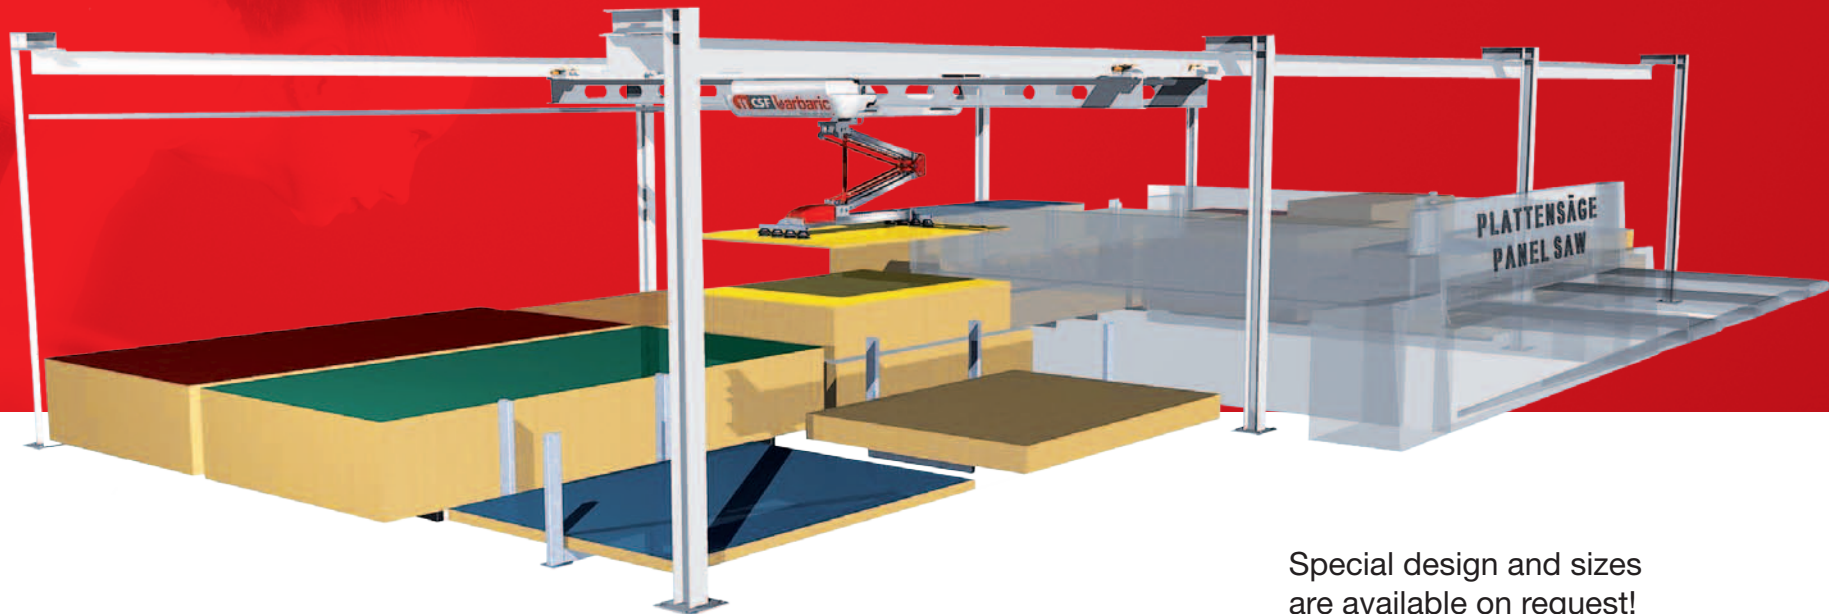

The machine is designed as modular construction, the storage can be enlarged up to any size, depending on requirement and possibility of installation in production hall.

The storage areas are either chaotic or sorted. A mixed storage is also possible, the layout of the storage can be arranged new at any time.

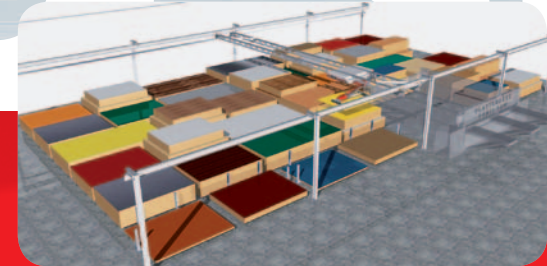

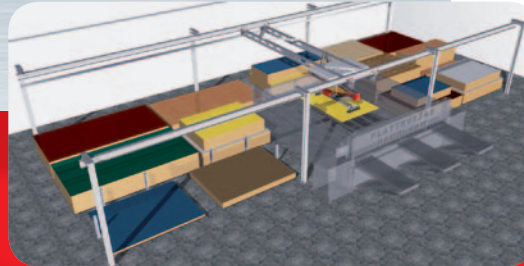

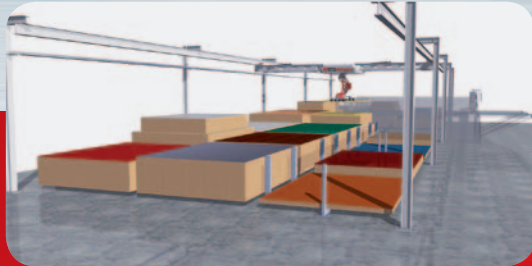

The stacked panels can be requested either at the saw or at the "storage-PC". The windows based software is clearly arranged and easy to handle.

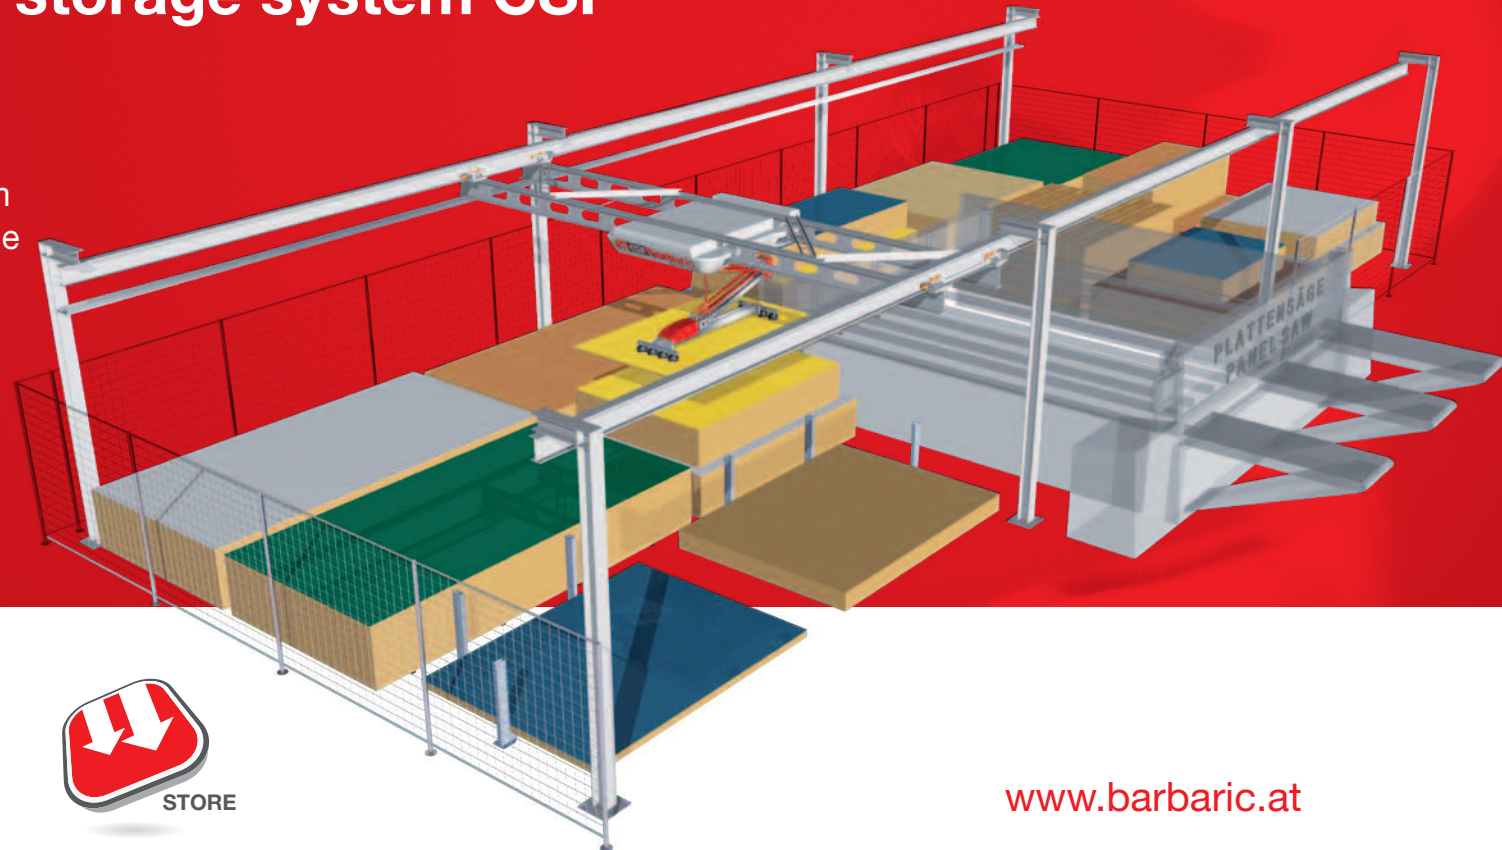

Special design and sizes are available on request!
